

## FACT SHEET

### LIPOVITA® C XTEND

#### PRODUCT OVERVIEW

LIPOVITA® C XTEND is A State- of-Art liposomal system engineered with a highly optimized polymeric matrix which allows LIPOVITA® C XTEND to be greatly permeated and retained in the skin making it a superior formula with optimized kinetics for protecting the skin against oxidative stress, reducing the signs of aging and brightening uneven skin tones.

#### FEATURES AND KINETICS

- Enhanced skin permeation
- Sustained vitamin C activity
- Collagen & anti-aging support
- 4.1× higher delivery

#### MECHANISM OF ACTION

1. **Enhanced penetration:** Polymer-coated liposomes alter stratum corneum properties, improving permeation and retention.
2. **Brightening effect:** Inhibits tyrosinase to reduce melanin formation for a more even skin tone.
3. **Anti-aging support:** Stimulates collagen synthesis and stabilizes fibers, improving firmness and elasticity.

#### KEY INGREDIENTS

- Liposomal Ascorbic acid

#### STORAGE CONDITIONS

- Storage: 15-25 °C; refrigeration (2-8 °C) recommended for stability. Avoid freezing.
- Protection: Keep tightly sealed, protected from light and moisture.
- Handling: Minimize exposure to heat, air, and repeated opening..

#### APPLICATIONS

Suitable for creams, lotions, and gels to:

- Brighten skin and even tone
- Reduce dark spots and prevent premature aging
- Improve firmness and long-lasting hydration
